

# THE SMART WAY.

We can help save you time and up to 80%\* of your Electronic Health Records conversion project costs.

## STAKEHOLDER INTERVIEWS

STAGE  
01

We spend time listening to your activity and retention needs so we know exactly what you need to scan... and don't need to scan.

## PROJECT MAPPING

STAGE  
03

We scan smarter using project mapping. Why pay to have 100% of your records scanned when a typical box only needs only 10% of its contents scanned.

## WORKFLOW STUDIES

STAGE  
02

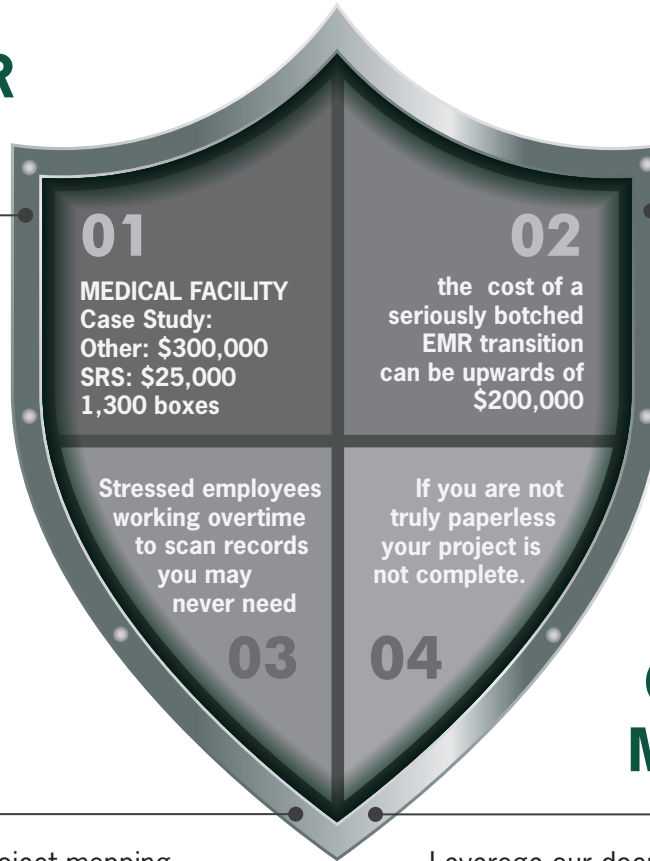

Workflow can be seriously disrupted by ad hoc multi-system solutions and can lead to an expensive record conversion failure.

## CONVERSION MANAGEMENT

STAGE  
04

Leverage our document management knowledge, specialized processes, dynamic barcoding system and 75,000 sq/ft secured storage facility to reduce your costs.

Sign up today for a FREE conversion cost analysis and road map.

\*Typical costs: Scan Yourself, \$200+/- per box, Outsource Imaging of all documents, \$150+/- per box  
Secure Records Solutions Scan-on-Demand process: \$50+/- per box
