

MUNICIPAL GOVERNMENT

DOCUMENT SHREDDING

“SRS helped us organize a project to remove and destroy 30 years of county records. Their team went above and beyond to help us get the project done!”

*- Paula Granger,
County Manager,
Seminole County, GA*

CITY OF CAMILLA

SRS developed a regular shredding program to make document management more efficient and secure for the City of Camilla. City Clerk, Cheryl Ford shared that, “SRS helped us establish a shredding program to improve our information security practices. They’ve been a great partner to the City.” She continued, “I was so satisfied with the service that I referred the Police Department to ensure their shredding program was GCIC compliant.”

DECATUR COUNTY

SRS provides a Georgia Crime Information Center (GCIC) compliant shredding solution for law enforcement across South Georgia. One of only a few in the state, SRS is accredited by the GBI. Upon completion of a project for the Decatur County Sheriff’s Office, Chief Deputy Wendell Cofer said, “The SRS team has helped us develop a GCIC compliant shredding solution that gives us confidence our confidential documents are being properly disposed of.”

SEMINOLE COUNTY

The Seminole County Board of Commissioners had 30+ years of county records. SRS worked with County Manager, Paula Granger, to manage the entire project of identifying, moving, and destroying all records onsite while her staff observed. “SRS helped us organize a project to remove and destroy 30 years of county records. Their team went above and beyond to help us get the project done!” - Paula Granger, County Manager

Secure Records Solutions (SRS) works with municipal governments to help them reduce their risk and improve processes so they are less reliant on paper records. Our business is making your organization more efficient and secure.
